

Modified CC1 – Composition of capital for SMSBs

Purpose: Provide a breakdown of the constituent elements of an SMSB's capital.

Content: Breakdown of regulatory capital according to the scope of regulatory consolidation

Frequency: Quarterly.

Format: Fixed.

Accompanying narrative: Category 1 SMSBs are expected to supplement the template with a narrative commentary to explain any significant changes over the reporting period and the key drivers of such change.

Template KM1: Key metrics (at consolidated group level)

Purpose: To provide an overview of an SMSB's prudential regulatory metrics.

Content: Key prudential metrics related to risk-based capital ratios, leverage ratio and liquidity standards. SMSBs are required to disclose each metric's value using the corresponding standard's specifications for the reporting period-end (designated by T in the template below) as well as the four previous quarter-end figures (T-1 to T-4). All metrics are intended to reflect actual bank values for (T), with the exception of "fully loaded expected credit losses (ECL)" metrics, the leverage ratio (excluding the impact of any applicable temporary exemption of central bank reserves) and metrics designated as "pre-floor" which may not reflect actual values.

Frequency: Quarterly.

Format: Fixed. If SMSBs wish to add rows to provide additional regulatory or financial metrics, they must provide definitions for these metrics and a full explanation of how the metrics are calculated (including the scope of consolidation and the regulatory capital used if relevant). The additional metrics must not replace the metrics in this disclosure requirement.

Accompanying narrative: Category 1 SMSBs only are expected to supplement the template with a narrative commentary to explain any significant change in each metric's value compared with previous quarters, including the key drivers of such changes (eg whether the changes are due to changes in the regulatory framework, group structure or business model).

Template LR2: Leverage ratio common disclosure template

Purpose: To provide a detailed breakdown of the components of the leverage ratio denominator, as well as information on the actual leverage ratio, minimum requirements and buffers.

Content: Quantitative information.

Frequency: Quarterly.

Format: Fixed.

Accompanying narrative: Category 1 SMSBs must describe the key factors that have had a material impact on the leverage ratio for this reporting period compared with the previous reporting period.
