

Hard Token User Guide

An AFT user proceeds as follows to log in to *PaymentStream* AFT with a hard token for the first time:

- Enter your user ID and temporary password. The system will prompt you to change your password. Characteristics of secure passwords are as follows:
 - Must be a minimum of eight characters
 - Can contain opposite case characters, non-alphanumeric characters, or numeric characters
 - Cannot be the same password used as one of the last six passwords

Note: It is recommended to use a pass-phrase as these are harder to guess (e.g., "deskchairphonemug").
